PRESENTS

Lieutenant Ray McCormack

Fire Department, City of New York

A Three Part Program

“Lineboss ■ Engine Company Errors - The Dirty Dozen ■ Tactical Safety”

Lineboss: The decisions made by the Engine Officer directly impact the safety of everyone on the fireground. This section examines the fireground decision-making process regarding hose line selection, placement, and stretching techniques for fires in private dwellings, multiple dwellings, high-rise, and commercial buildings. Learn to separate what works from what doesn't and why.

Engine Company Errors – The Dirty Dozen: This section examines the twelve most common tactical errors made by engine companies on the fireground. These errors have led to firefighter injuries and deaths. Learn how to recognize and avoid making these errors.

Tactical Safety: This class examines several dozen tactical safety procedures to incorporate into your daily fireground operations. These procedures will increase your operational safety and reduce fireground injuries. Through the use of video, discussion, case histories, and shared experiences you'll be able to quickly incorporate real safety into your departments training and tactical operations.

LOCATION	COST	DATE and TIME
Carr Convention Center 4400 Rosewood Drive Pleasanton, CA 94588	\$110	Thursday, January 28, 2010 0900-1600

Ray McCormack is a Lieutenant and 28 year veteran of the FDNY. He is currently assigned to Ladder 28 after having spent more than 10 years commanding Engine 69. He is a contributor to WNYF (With New York Firefighters), Fire Engineering and International Fire Buyer magazines, FireNuggets.com and thehousewatch.com. He is the founder of liveburntraining.com which provides firefighter training and benefit seminars. He lectures frequently on the role of the company officer, engine and ladder company tactical operations. He can be reached at Ray@liveburntraining.com

Registration cost includes handouts, lunch and certificate.
